بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

In the name of Allaah, the Most Merciful, the Bestower of Mercy

Most of those whom have embraced this ideology are ignoramuses. They are misled due to their shortage of knowledge and insight. This is why they have taken this takfeeree way of thinking from a group who have traversed this path in order to achieve their doubtful and dubious agendas. They have therefore come with these ideologies in order to deceive those with little knowledge, understanding and insight.

It is therefore a duty for every person to advise those who follows this doctrine, so as to show him the falsehood of this doctrine and methodology, and to remind him of Allaah. If he repents and listens to reason, then this is what is hoped for. However, when he continues upon his falsehood, then they should not be left to corrupt our youth!

The takfeeree ideology is a horrible mistake! Behind these ways of thinking are persons who wish to harm the Ummah and they use all means in order to achieve this. I advice my brothers to watch out for calls inviting to declare as disbelievers entire Islaamic societies, revolting against the authority of the rulers and the use of weapons against Muslims!

Furthermore, I advise those who give them (these youths) fatwa, to fear Allaah for themselves! To fear Allaah with regards to the Muslims and their societies! They have to know that this path is the path of the people of innovation!

They, the pious predecessors, are far removed from this wrong path. On the contrary, they encouraged to hear and obey, and to have patience with the rulers. Even though these rulers were unjust! The (the pious predecessors) prohibited from revolting against the authority of the rulers, in order to spare Muslim lives and to create unity. So fear Allaah with regards to the Muslims! Watch out for the Anger and Punishment of Allaah!

The Muslims should stay away from those amongst them who do not repent, and watch out and warn against them!

May Allaah [(Azza wa Jaal) Mighty and Majestic is He] protect the Muslims from apparent and hidden trials and tribulations.
